To whom it may concern,

The purpose of this letter is to highly recommend Christopher for a position as an Aerospace Engineer.

I was one of his professors at California State University Long Beach for several years. He is a highly competent and extremely motivated young engineer with strong leadership skills. He is always focused on the task at hand and requires very little supervision. His communication skills are excellent and his ability to work in a team environment was very refreshing for someone of his experience level.

I highly recommend him for your company. Please feel free to contact me if you need any further information.

Sincerely,
